Week 1 Assignment: Version Control

- Clone the VC repo (https://github.com/DataGlacier/VC.git)
- Create a new branch
- checkout newly created branch
- Run the add.py and provide your name and fav sport as input
- Run the test script using below command:

    pytest test/test.py -s

- Ignore warning and if there is no error then add, commit and push your changes to repo
- Create pull request and assign to reviewer (If you are working in the group else push the changes to your own repo and submit the URL of that)
- If the reviewer approves then merge the changes to master (optional as this is individual assignment.)

Git Bash

git init
cd Documents
cd GitHub
*git clone **https://github.com/DataGlacier/VC.git***
cd VC
*git checkout -b **week1_rc***
pytest test/test.py -s
git add .
git commit -m "Add existing file"
*git push origin **week1_rc***
remote: Permission to DataGlacier/VC.git denied to raquelCastromonte.
fatal: unable to access 'https://github.com/DataGlacier/VC/': The requested URL returned error: 403
*git push **https://github.com/raquelCastromonte/Data-Glacier-Internship***
